SOUTH AUSTRALIA.

# STATISTICAL REGISTER.

## 1945-46.

Compiled from Official Records.

Government Statist, &c.

By Authority: K. M. STEVENSON, Government Printer, Adelaide.

1948.

# Statistical Register of South Australia, 1945-1946.

## PREFACE.

The Statistical Register is divided into five parts as follows:—

Part I.—Social—Administration, Justice, Education, Hospitals, Charities, etc.
II.—Population and Vital
III.—Finance—State, Local Government, Banking, etc.
IV.—Trade, Transport and Communication.
V.—Production

A Statistical Summary of South Australia for the years 1836 to date inclusive is attached at the end of the volume.

Certain returns were omitted from issues during the war because of staff and paper shortages but a number have been included again in this issue. Some will not be resumed until 1946–47 or later and these are marked B in Index. Information for previous years is shown in previous years' issues, and certain information is shown in other departmental reports, such as Budget Papers and Reports of the Education, Police, Hospitals, etc., Departments.

Since in most cases considerations of space do not permit of a verbal analysis of the figures, it has been necessary in certain tables to append explanatory notes at the bottom of the page. Careful attention is drawn to these notes since they will generally be of considerable assistance in interpreting the published figures.

My thanks are tendered to the various heads of State and Commonwealth Departments for their co-operation in furnishing statistical data, often at considerable inconvenience.

I desire also to express my appreciation of the services of Mr. H. L. Semmens, Assistant Government Statist, and of the staff of compilers and other officers for their careful attention to intricate details in the compilation of the various sections of this volume.

9th June, 1948.

A. W. BOWDEN, Government Statist, etc.

# Statistical Register of South Australia, 1945-46.

# Part IV.—TRADE AND SHIPPING.

## FOREWORD.

During the war years the Trade and Shipping Part of the Statistical Register was not printed because of censorship restrictions.

In 1944-45 it was possible to publish the two detailed tables giving full particulars of the goods imported from and exported to the various countries for the years 1939-40 to 1944-45.

In this present issue for 1945-46 it has been possible to include the various summary and shipping tables as in pre-war issues. Tables 1 and 2, as printed previously, are being omitted however.

## CURRENCY VALUES.

All oversea imports in this, as in previous issues, are shown as being recorded in British currency, though strictly speaking they are British currency, plus 10 per cent. The full definition is printed at head of table 14.

Exports are shown in Australian currency, the full definition being printed at head of table 15.

In the 1947-48 issue of this Part, details for both Imports and Exports will be recorded in Australian currency. This follows the 1947 Amendment to the Commonwealth Customs Act, 1901-1936.

In view of the proposed alteration in expressing trade values, it was considered that nothing was to be gained by retaining previous returns 1 and 2 expressing imports, exports, excess exports, etc., in alternative British and Australian currencies.

# DIRECT OVERSEA IMPORTS, 1945-46.

(For Alphabetical Index to Items, see page 19.)

## No. 14.—Direct Oversea Imports into the State of South Australia for the Year ended 30th June, 1946.

NOTE.—With the exception of Great Britain, New Zealand, and Australia, and in cases where a single country is concerned, only those countries are shown under each article where the value of imports exceeds £100 during any year.

In all cases where an item was not imported during the period, classification number of the item has been omitted from following table.

**Value of Imports.**—The value of goods imported from countries beyond Australia is recorded in British currency and represents the amount on which duty is payable or would be payable if duty were **ad valorem.** Section 154 (1) of the Customs Act, 1901-1936, provides that " when any duty is imposed according to value, the value for duty shall be the sum of the following :—

(a) (I.) The actual money price paid or to be paid for the goods by the Australian importer plus any special deduction ; or
(II.) the current domestic value of the goods, whichever is the higher ;
(b) All charges payable or ordinarily payable for placing the goods free on board at the port of export, and
(c) ten per cent of the amounts specified under paragraphs (a) and (b) of this subsection.

" Current domestic value " is defined as " the amount for which the seller of the goods to the purchaser in Australia is selling or would be prepared to sell for cash, at the date of exportation of these goods, the same quantity of identically similar goods to any and every purchaser in the country of export for consumption in that country ".

**Quantities.**—Generally, but not invariably, quantities have been shown in the ordinary trade unit ; where the cental is used, the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity or weight, of the articles imported, the values only have been inserted.

**N.E.I.** means " Not elsewhere included ".

**Import Duties.**—Duties charged on imports into South Australia are collected by the Commonwealth of Australia under various Acts.

# DIRECT OVERSEA EXPORTS, 1945-46.

(For Alphabetical Index to Items see page 19.)

## No. 15.—RETURN showing Direct Oversea Exports from the State of South Australia for Year 1945-46.

NOTE.—In all cases where an item was not exported during the year, the classification number of the item has been omitted from the following table.

**Value of Exports.**—The value of goods exported (including cost of containers) is recorded in Australian currency and is generally the value in the principal markets of the Commonwealth in the ordinary commercial acceptation of the term, except for the following commodities, concerning which an alteration in the method of valuation of exports was made as follows :—

From 1st July, 1929. Sugar (a) sold in Australia for export : The value f.o.b. at which the sugar is sold to oversea buyers ; (b) shipped on consignment : The f.o.b. equivalent of the ruling price of such sugar in the London markets. Goods on which bounty or rebate is payable on export : The value of the goods in the principal markets of the Commonwealth less the amount of any bounty or rebate.

From 1st July, 1930. Wool (a) sold in Australia for export : The actual price paid for the wool plus the cost of all services incurred in placing the wool on board ship ; (b) shipped on consignment : The f.o.b. equivalent of ruling Australian prices.

From 1st July, 1932. Wheat (a) sold in Australia for export : The f.o.b. equivalent of the price at which the wheat was sold ; (b) shipped on consignment : The f.o.b. equivalent of the current selling price overseas.

From April 1st, 1934. Butter (a) sold in Australia for export : The f.o.b. equivalent of the price at which the butter was sold ; (b) shipped on consignment : The f.o.b. equivalent of the current ruling price overseas.

From 1st July, 1934. Flour (a) sold in Australia for export : The f.o.b. equivalent of the price at which the flour was sold ; (b) shipped on consignment : The f.o.b. equivalent of ruling Australian prices.

From 1st July, 1937, the following revised definition of f.o.b. values have been adopted for exports generally :—

(1) Goods sold to Oversea buyers before export : The f.o.b. equivalent of the price at which the goods were sold (e.g., as regards wool, the actual price paid by the overseas buyer, plus the cost of all services incurred by him in placing the wool on board ship).

(2) Goods shipped on consignment : The Australian f.o.b. equivalent of the current price offering for similar goods of Australian origin in the principal markets of the country to which the goods were despatched for sale (as regards wool, the f.o.b. equivalent of current price ruling in Australia will normally provide a sufficient approximation to the f.o.b. equivalent of the price ultimately received.

**N.E.I.** means " Not elsewhere included ".

**Exports to Other States.**—Goods transferred from South Australia to the other States of the Commonwealth for shipment to oversea countries are shown as exports from the State from which the goods were finally dispatched and are not included in the South Australian details.

**Ship's Stores.**—Goods shipped as " Ship's Stores " on board overseas ships are not included in exports. See Return No. 13.

NOTE.—In compiling the above tables, the mean rainfall in each agricultural county has been first obtained from all available records within or on the borders of the county, and then weighted by the area of the county to obtain the mean rainfall for each Division and the State. Counties Hamley and Young (Murray Mallee), Derby, Lytton, and Taunton (Upper North), and Manchester, Hore-Ruthven, and York (Western) being non-agricultural counties, are excluded in compiling the average rainfall for this return.

(*a*) Gross value is defined as the value placed on recorded production at the wholesale price realised in the principal markets. Where primary products are absorbed at a local point or become raw material for a secondary industry, the value in each case is presumed to be the value at the principal market. Values include Bounties. (*b*) Marketing Costs.—Freight, commission, containers, insurance, etc. (*c*) Local value is gross value less marketing costs, being value at place of production, (*d*) Production costs such as stock feed, petrol, oil, seed costs, seed pickling, manures, spraying, dips, and power and water used in irrigation. (*e*) Production Costs.—Depreciation of machinery and implements (Agricultural, 10 per cent, pastoral and dairying, 5 per cent.) and maintenance of buildings and fences (4 per cent. on estimated present value of buildings, etc., used for farm or station purposes, excluding residences). (*f*) Net value is local value less production costs. (*g*) Local value is also accepted as net. (*h*) Gross value is also accepted as local and net for years prior to 1935-36. (*i*) Power, fuel, explosives, timber, etc.
